## Spring Break Camp

### 6-10 Year Olds

#### Animal Adaptations

March 15-19 (full week camp)

March 15-17 (3 day option)

Explore the wild in the zoo and the wild in you! During this program campers will get in touch with their wild side as they think and maybe even act like an animal! Campers will learn about the animals at the zoo and what makes these animals unique. Get up close and personal as we meet animal ambassadors, and speak to zoo keepers and learn what animals need to survive in the wild.

## Fall Break Camp

### 6-10 Year Olds

#### Jack of All Sciences

October 11-15 (full week camp)

October 11-13 (3 day option)

What comes to mind when you picture a scientist? A white lab coat? Bubbling concoctions and wild explosions? In this camp, campers will become real-life scientists and spend each day exploring a new branch of science including zoology, chemistry, paleontology, and more! Campers will have the opportunity to dig up and examine fossils, complete an owl pellet dissection, and get exclusive behind-the-scenes zoo access and face-to-face interactions with experts in their scientific fields to learn all about what it really means to be a scientist!
